this fully revised and updated second edition of the oxford handbook of comparative law provides a wide ranging and diverse critical survey of comparative law at the beginning of the twenty first century it summarizes and evaluates a discipline that is time honoured but not easily understood in all its dimensions in the current era of

globalization this discipline is more relevant than ever both on the academic and on the practical level the handbook is divided into three main sections section i surveys how comparative law has developed and where it stands today in various parts of the world this includes not only traditional model jurisdictions such as france germany and the united states but also other regions like eastern europe east asia and latin america section ii then discusses the major approaches to comparative law its methods goals and its relationship with other fields such as legal history economics and linguistics finally section iii deals with the status of comparative studies in over a dozen subject matter areas including the major categories of private economic public and criminal law the handbook contains forty eight chapters written by experts from around the world the aim of each chapter is to provide an accessible original and critical account of the current state of comparative law in its respective area which will help to shape the agenda in the years to come each chapter also includes a short bibliography referencing the definitive works in the field

the field of comparative constitutional law has grown immensely over the past couple of decades once a minor and obscure adjunct to the field of domestic constitutional law comparative constitutional law has now moved front and centre driven by the global spread of democratic government and the expansion of international human rights law the prominence and visibility of the field among judges politicians and scholars has grown exponentially even in the united states where domestic constitutional exclusivism has traditionally held a firm grip use of comparative constitutional materials has become the subject of a lively and much publicized controversy among various justices of the u s supreme court the trend towards harmonization and international borrowing has been controversial whereas it seems fair to assume that there ought to be great convergence among industrialized democracies over the uses and functions of commercial contracts that seems far from the case in constitutional law can a parliamentary democracy be compared to a presidential one a federal republic to a unitary one moreover what about differences in ideology or national identity can constitutional rights deployed in a libertarian context be profitably compared to those at work in a social welfare context is it perilous to compare minority rights in a multi ethnic state to those in its ethnically homogeneous counterparts these controversies form the background to the field of comparative constitutional law challenging not only legal scholars but also those in other fields such as philosophy and political theory providing the first single volume comprehensive reference resource the oxford handbook of comparative constitutional law will be an essential road map to the field for all those working within it or encountering it for the first time leading experts in the field examine the history and methodology of the discipline the central concepts of constitutional law constitutional processes and institutions from legislative reform to judicial interpretation rights and emerging trends

the oxford handbooks of political science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science each volume focuses on a particular part of the discipline with volumes on public policy political theory political economy contextual political analysis comparative politics international relations law and politics political behavior political institutions and political methodology the project as a whole is under the general editorship of robert e goodin with each volume being edited by a distinguished international group of specialists in their respective fields the books set out not just to report on the discipline but to shape it the series will be an indispensable point of reference for anyone working in political science and adjacent disciplines the oxford handbook of

comparative politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 47 top scholars in the discipline of comparative politics part i includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics parts ii to iv examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics parts v and vi explore the mobilization representation and coordination of political demands part v considers why parties emerge the forms they take and the ways in which voters choose parties it then includes chapters on collective action social movements and political participation part vi opens up with essays on the mechanisms through which political demands are aggregated and coordinated this sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy finally part vii is organized around the burgeoning literature on macropolitical economy of the last two decades

the sage handbook of comparative politics presents in one volume an authoritative overview of the theoretical methodological and substantive elements of comparative political science the 28 specially commissioned chapters written by renowned comparative scholars guide the reader through the central issues and debates presenting a state of the art guide to the past present and possible futures of the field

a big project like this handbook means that you incur debts and not only to your authors and your publisher as editors we along with our colleague elaine unterhalter who edited the section on postcolonialism would like to thank most warmly those authors who delivered on time and who did not fuss but just got on and did a r rate job we would also like to thank all authors who did deliver which was almost everyone we asked we know that some of our authors worked in very dif cult private circumstances as they were nishing their chapters and we hope the publication of the volumes will later be for them a happy reminder of dif culties and disasters overcome the only sad theme is that some very close colleagues with whom we were wo ing and for whom we had the greatest respect and liking became very ill and died while the volumes were being prepared we decided to ask for copyright permissions to publish something of theirs these permissions were graciously given by two major journals and with the agreement also of our publishers springer rolland paulston and terry mclaughlin have examples of their writing in this handbook

the comparative study of administrative law has a long history dating back more than 200 years it has enjoyed a renaissance in the past 15 years or so and now sits alongside fields such as comparative constitutional law and global administrative law as a well established area of scholarly research this book is the first to provide a broad and systematic view of the subject both in terms of the topics covered and the legal traditions surveyed in its various parts it surveys the historical beginnings of comparative administrative law scholarship discusses important methodological issues examines the relationship between administrative law and regime type

analyses basic concepts such as administrative power and accountability and deals with the creation functions and control of administrative power and values of administration the final part looks to the future of this young sub discipline in this volume distinguished experts and leaders in the field discuss a wide range of issues in administrative law from a comparative perspective administrative law is concerned with the conferral nature exercise and legal control of administrative or executive governmental power it has close links with other areas of public law notably constitutional law and international law it is of great interest and importance not only to lawyers but also to students of politics government and public policy studying public law comparatively helps to identify both similarities and differences between the way government power and its control is managed in different countries and legal traditions

the oxford handbook of comparative regionalism the first of its kind offers a systematic and wide ranging survey of the scholarship on regionalism regionalization and regional governance unpacking the major debates leading authors of the field synthesize the state of the art provide a guide to the comparative study of regionalism and identify future avenues of research twenty seven chapters review the theoretical and empirical scholarship with regard to the emergence of regionalism the institutional design of regional organizations and issue specific governance as well as the effects of regionalism and its relationship with processes of regionalization the authors explore theories of cooperation integration and diffusion explaining the rise and the different forms of regionalism the handbook also discusses the state of the art on the world regions north america latin america europe eurasia asia north africa and the middle east and sub saharan africa various chapters survey the literature on regional governance in major issue areas such as security and peace trade and finance environment migration social and gender policies as well as democracy and human rights finally the handbook engages in cross regional comparisons with regard to institutional design dispute settlement identities and communities legitimacy and democracy as well as inter and transregionalism

its twenty one commissioned chapters serve two functions they provide a general and theoretical introduction to comparative syntax its methodology and its relation to other domains of linguistic inquiry and they also provide a systematic selection of the best comparative work being done today on those language groups and families where substantial progress has been achieved this volume will be an essential resource for scholars and students in formal linguistics jacket

this innovative refreshing and reader friendly book is aimed at enabling students to familiarise themselves with the challenges and controversies found in comparative law at present there is no book which clearly explains the contemporary debates and methodological innovations found in modern comparative law this book fills that gap in teaching at undergraduate level and for postgraduates will be a starting point for further reading and discussion among the topics covered are globalisation legal culture comparative law and diversity economic approaches competition between legal systems legal families and mixed systems comparative law beyond europe convergence and a new ius commune comparative commercial law comparative family law the common core and the better law approaches comparative administrative law comparative studies in constitutional contexts comparative law for international criminal justice judicial comparativism in human rights comparative

law in law reform comparative law in courts and a comparative law research project the individual chapters can also be read as stand alone contributions and are written by experts such as masha antokolskaia john bell roger cotterell sjef van erp nicholas foster patrick glenn andrew harding peter leyland christopher mccrudden werner menski david nelken anthony ogus esin Örüçü paul roberts jan smits and william twining each chapter begins with a description of key concepts and includes questions for discussion and reading lists to aid further study traditional topics of private law such as contracts obligations and unjustified enrichment are omitted as they are amply covered in other comparative law books but developments in other areas of private law such as family law are included as being of current interest

this handbook is the first comprehensive account of comparative environmental law it examines in detail the methodological foundations of the discipline as well as the substance of environmental law across countries from four vantage points country studies from all continents responses to common problems including air pollution water management nature conservation genetically modified organisms climate change and energy chemicals waste foundational components of environmental law systems including principles property rights administrative and judicial organisation command and control regulation market mechanisms informational techniques and liability mechanisms and common interactions of environmental protection with the broader public private and criminal law contexts the volume brings together the foremost authorities in this field from around the world to provide a concise self contained and technically rigorous account of environmental law as a single overall system

this 46 chapter book written by leading experts across the globe compares and contrasts the foreign relations law of nations around the world both documenting important differences and also noting commonalities and emerging trends comparative foreign relations law is a newly emerging field of study and teaching and this volume is likely to become a key reference work as the field continues to develop

the oxford handbook of comparative political theory provides an entry point into this burgeoning field by both synthesizing and challenging the terms that motivate it the handbook demonstrates how mainstream political theory can and must be enriched through attention to genuinely global rather than parochially euro american contributions to political thinking entries emphasize exploration of substantive questions about political life ranging from domination to political economy to the politics of knowledge in a range of global contexts with attention to whether and how those questions may be shared contested or reformulated across differences of time space and experience they connect comparative political theory to cognate disciplines including postcolonial theory area studies and comparative politics creative organizational tools such as tags and keywords aid in navigation of the handbook to help readers trace disruptions thematic connections contrasts and geographic affinities across entries

it is increasingly accepted that institutions matter for economic organization and outcomes the last decade has seen significant expansion in research examining how

institutional contexts affect the nature and behaviour of firms the operation of markets and economic outcomes yet institutions conceal a multitude of issues and perspectives much of this research has been comparative and followed different models such as varieties of capitalism national business systems and social systems of production this handbook explores these issues perspectives and models with the leading scholars in the area contributing chapters to provide a central reference point for academics scholars and students

the routledge handbook of comparative territorial autonomies affords a comprehensive pioneering and interdisciplinary survey of this emerging field moving beyond traditionally narrower engagements with the subject it combines approaches to comparative law and comparative politics to provide an authoritative guide to the principal theoretical and empirical topics in the area bringing together a team of cutting edge scholars from different disciplines and continents the volume illuminates the latest thinking and scholarship on comparative territorial autonomies this handbook is an authoritative essential reference text for students academics and researchers in its field it will also be of key interest to those in the fields of comparative politics comparative law local regional government federalism decentralisation and nationalism as well as practitioners in think tanks ngos and international governmental organisations

the routledge handbook of comparative political institutions hcpi is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions in the comparative context it differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes drawing on the perspective of comparative politics the handbook is organized into three sections the first section consisting of six chapters is organized around broad theoretical and empirical challenges affecting the study of institutions it highlights the major issues that emerge among scholars defining measuring and analyzing institutions the second section includes fifteen chapters each of which handles a different substantive institution of importance in comparative politics this section covers traditional topics such as electoral rules and federalism as well as less conventional but equally important areas including authoritarian institutions labor market institutions and the military each chapter not only provides a summary of our current state of knowledge on the topic but also advances claims that emphasise the research frontier on the topic and that should encourage greater investigation the final section encompassing seven chapters examines the relationship between institutions and a variety of important outcomes such as political violence economic performance and voting behavior the idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions featuring contributions from leading researchers in the field from the us uk europe and elsewhere this handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics jennifer gandhi is associate professor department of political science emory university rubén ruiz rufino is lecturer in international politics department of political economy king s college london

the handbook of comparative communication research aims to provide a comprehensive understanding of comparative communication research it fills an obvious gap

in the literature and offers an extensive and interdisciplinary discussion of the general approach of comparative research its prospect and problems as well as its applications in crucial sub fields of communications the first part of the volume charts the state of the art in the field the second section introduces relevant areas of communication studies where the comparative approach has been successfully applied in recent years the third part offers an analytical review of conceptual and methodological issues and the last section proposes a roadmap for future research

this handbook presents the first comprehensive study of policy analytical practices in comparative perspective it explores emerging developments and innovations in the field and advances knowledge of the nature and quality of policy analysis across different countries and at different levels of government by all relevant actors both inside and outside government who contribute to the diagnosis of problems and the search for policy solutions handbook chapters examine all aspects of the science art and craft of policy analysis they do so both at the often studied national level and also at the less well known level of sub national and local governments in addition to studying governments the handbook also examines for the first time the practices and policy work of a range of non governmental actors including think tanks interest groups business actors labour groups media political parties and non profits bringing together a rich collection of cases and a renowned group of scholars the handbook constitutes a landmark study in the field

educational practices have rapidly changed in the last few decades especially in how exchanges of information and learning are delivered and processed yet while the field of international comparative studies has grown there has not been an extensive study on the relationship between educational practices students and how practitioners are prepared and trained this handbook explores international educational practices and behaviours through new research and a review of existing research with chapters spread across six parts part i introduction to research practices in comparative studies of education part ii research methods part iii policy transfer research through international comparisons part iv use of student time in formal and informal settings part v school practices from early childhood through secondary school part vi conclusion lessons from large scale studies
