the failure of attempts to tackle global poverty have bred cynicism and compassion fatigue eradicating extreme poverty provides an urgently needed fresh approach which will re energise action on this issue rejecting traditional top down approaches xavier godinot and his colleagues start from the experiences capabilities and strategies of the poor themselves they argue that the first step is a close connection with poor communities followed by a commitment to take action alongside them life stories from burkina faso france peru and the philippines are used to show that the poor must be involved in their own liberation after decades of failed development policies this book outlines a radical new approach which will enliven debate amongst policy makers researchers students and academics

si les nouveaux pauvres sont des exclus n est ce pas que l isolement de chacun est aujourd hui le mal général n est ce pas d ailleurs cet isolement plus que celui des pauvres eux mêmes que cherche à rompre la charité médiatisée au fil des siècles les réflexions sur la pauvreté reflètent non pas tant la condition réelle des pauvres que ce que chaque époque considère comme son malheur au xvie et au début du xviiie siècle si le pauvre est perçu comme un désordonné et un criminel c est que le désordre sévit au coeur de l état lorsqu au xviiiie on tend à voir le pauvre comme une majorité utile à qui l on ne fait pas justice c est sans doute que des paysans meurent de faim mais plus encore que la bourgeoisie cherche à faire reconnaître son utilité sociale lorsqu à l avènement de l ère industrielle on voit dans le pauvre cet ouvrier démoralisé dans tous les sens du terme c est que se pose la question de l avenir moral de l homme dans une société vouée à la production et à l échange de richesses parler des pauvres c est donc moins s intéresser à leurs propres besoins qu à ceux de la communauté mais c est aussi révéler les trois grands impératifs de toute société que sont l ordre l utilité et le don philippe sassier est né en 1951 il est docteur d état en science politique
